SAFE. SMART. STEP-BY-STEP. PLAN FOR FLORIDA'S RECOVERY

ESS INFORMATION FOR REPORTING FACILITIES

- ESS is critically important for the State to anticipate demand in the hospital & sub-acute care setting. This data influences decisions on the need for additional support and equipment requests from federal government.
- Facilities MUST verify and update data once daily.
- ESS is adding more fields daily. Instructions on these new fields available on the AHCA ESS website.
- Hospitals should estimate the number of med surge beds that can be converted to ICU beds. Do not duplicate bed numbers in different categories. Start with highest acuity beds.
- Corporate Representatives can be established to monitor data entry at individual facilities. Contact AHCA for assistance

SURGEON GENERAL'S PRIORITIES

Florida's 5 STEPS to Prevent COVID-19

- STOP INTRODUCTION**
Stop Introduction into Florida from out of state.
- TEST, TEST, TEST**
Leverage testing capabilities & work to expand capacity.
- ELDERLY & VULNERABLE PROTECTION**
Protect the elderly by increased mitigation and messaging at assisted living centers, nursing homes, and other special facilities.
- PREPARE HOSPITALS**
Assess the potential impacts and course of action for hospitals and bed capacity.
- SOCIAL DISTANCING**
Continue to message social distancing.
